

Name of the College:

B. Tech Semester VIII Project Seminar Evaluation Sheet Examination April/May - 20__

Roll No.	Name of the student	Signature of the student		Roll No.	Name of the student	Signature of the student	
		TW	Oral			TW	Oral

Date of intermediate exam: / / 20__ Time: _____ Venue: _____

Project Title: _____

Work done: _____

Report of Project Examiners: Quality of Work Done: Excellent / Good / Average / Satisfactory / Unsatisfactory

Specific Remarks of the examiners: _____

Examiner / Expert

Examiner / Guide / Co-Guide

Date of semester VIII exam: / / 20__ Time: _____ Venue: _____

Project Title: _____

Work done: _____

Details of Publications/Participation in Project Competition etc.: _____

Roll No.	Name of the student	TW Marks							Oral Marks					
		Max. Marks _____							Max. Marks _____					
		I	A	B	C	D	E	Total	A	B	C	D	E	Total

Report of Project Examiners: Quality of Work Done: Excellent / Good / Average / Satisfactory / Unsatisfactory

Specific Remarks of the examiners: _____

Examiner / Expert

Examiner / Guide / Co-Guide

Somaiya Vidyavihar University

Rubrics for Term Work (TW) Examination / Evaluation

#Level of evaluation	Level 1 Grade: L1	Level 2 Grade: L2	Level 3 Grade: L3	Level 4 Grade: L4	Level 5 Grade: L5
&Intermediate evaluation I = 100% of Max. marks	90% or 100% of I	70 % or 80% of I	60% of I	40% or 50% of I	0%, 10%, 20%, 30% of I
@Literature Survey A = 20% of max marks	90% or 100% of A	70 % or 80% of A	60% of A	40% or 50% of A	0%, 10%, 20%, 30% of A
@Development of Concept / Block diagram B = 20% of max marks	90% or 100% of B	70 % or 80% of B	60% of B	40% or 50% of B	0%, 10%, 20%, 30% of B
@Teamwork C = 20% of max marks	90% or 100% of C	70 % or 80% of C	60% of C	40% or 50% of C	0%, 10%, 20%, 30% of C
@Report: Technical contents, coherence and organization D = 20% of max marks	90% or 100% of D	70 % or 80% of D	60% of D	40% or 50% of D	0%, 10%, 20%, 30% of D
@Overall opinion about report E = 20% of max marks	90% or 100% of E	70 % or 80% of E	60% of E	40% or 50% of E	0%, 10%, 20%, 30% of E

& Department level decision can be: grade/marks/no evaluation

Attribute	Level	Description / Guidelines for level assessment
B	Level 1	Concept of the project is systematically developed with due considerations to all objectives, functions and constraints relevant to the problem taken up. Resources and feasibility is also considered. Deliverables and demonstration is well thought of.
	Level 2	Concept of the project is developed with consideration to all objectives, functions. Feasibility , deliverables and constraints is given due attention only after follow up from guide
	Level 3	Concept of the project is developed with consideration to all objectives, functions. Feasibility, deliverables and constraints are not considered even after follow up
	Level 4	Concept of the project is developed wherein some of the functions / objectives are not fulfilled. Feasibility , deliverables and constraints is given due attention only after follow up from guide
	Level 5	Concept developed is a vague idea without proper consideration to its objectives and functions.
C	Level 1	There is proper distribution of work with understanding of concepts. Team succeeds in communicating important aspects to each other for proper execution of any task.
	Level 2	Distribution of work is with some overlapping among team members. Team communicates concepts / work done to each other fairly well
	Level 3	Distribution of work is approximately done among team members. Team tries to communicate concepts / work done to each other which may lead to reallocation of work.
	Level 4	The work allotment and coordination of the team is bare minimum. Guides intervention needed sometimes for coordination.
	Level 5	The work allotment and coordination of the team is very poor. Guides intervention also may not lead to proper coordination.
D	Level 1	The report is organized as per the standard template given. An accurate and complete explanation of technical concepts and work done is given, with reference to relevant literature. The work reported is original and convincing.
	Level 2	The report is organized somewhat with standard template given. Some explanation of technical concepts and work done is given, with reference to relevant literature. The work reported is not very clear.
	Level 3	The report is organized somewhat with standard template given. Some explanation of technical concepts is given without proper referencing. The work reported is not very clear
	Level 4	The report is organized somewhat with standard template given. Some explanation of technical concepts is given without proper referencing. The work reported is with lots of lacuna
	Level 5	The report does not follow standard template. Explanation of technical concepts and the work done is vague. Proper references / table and figure numbers etc. are missing

Somaiya Vidyavihar University

Rubrics for Oral Examination / Evaluation

#Level of evaluation	Level 1 Grade: L1	Level 2 Grade: L2	Level 3 Grade: L3	Level 4 Grade: L4	Level 5 Grade: L5
@Presentation skills and participation A = 20% of max marks	90% or 100% of A	70 % or 80% of A	60% of A	40% or 50% of A	0%, 10%, 20%, 30% of A
@Understanding of domain area B = 20% of max marks	90% or 100% of B	70 % or 80% of B	60% of B	40% or 50% of B	0%, 10%, 20%, 30% of B
@Concept development and feasibility of work proposed C = 20% of max marks	90% or 100% of C	70 % or 80% of C	60% of C	40% or 50% of C	0%, 10%, 20%, 30% of C
@Demonstration, analysis and interpretation of work done D = 20% of max marks	90% or 100% of D	70 % or 80% of D	60% of D	40% or 50% of D	0%, 10%, 20%, 30% of D
@Overall opinion about work presented E = 20% of max marks	90% or 100% of E	70 % or 80% of E	60% of E	40% or 50% of E	0%, 10%, 20%, 30% of E

Attribute	Level	Description / Guidelines for level assessment
A	Level 1	Quality of Slides in Presentation is excellent. Contents are very relevant for explaining the work done. The flow of presentation is excellent with smooth transition among members.
	Level 2	Quality of Slides in Presentation is good. Contents are fairly good for explaining the work done. The flow of presentation is good but coordination amongst members need improvement
	Level 3	Slides in Presentation are having some drawbacks like too much text / colour or transitions etc. Contents are slightly insufficient for explaining the work done. The flow of presentation is fair but coordination amongst members need improvement
	Level 4	Slides in Presentation are having drawbacks like too much text / colour or transitions etc. Contents are insufficient for explaining the work done. The flow of presentation is fair but there is mis-coordination amongst members
	Level 5	Slides in Presentation are having many drawbacks like too much text / colour or transitions etc. Contents are insufficient and are not able to explain work. The flow of presentation and but coordination amongst members is missing
B	Level 1	All Concepts in the project are very well understood. Any questions in the domain area are confidently answered
	Level 2	Most Concepts in the project are understood. Most of the questions in the domain area are answered
	Level 3	Fundamental Concepts in the project are understood. But some confusion on questions in the domain area
	Level 4	Fundamental Concepts in the project are not understood. Only few questions in the domain area are answered.
	Level 5	Even fundamental Concepts in the project are not understood. Almost no / Very few questions in the domain area are answered
C	Level 1	Concept of the project is systematically developed with due considerations to all objectives , functions and constraints relevant to the problem taken up. Resources and feasibility is also considered. Deliverables and demonstration is well thought of.
	Level 2	Concept of the project is developed with consideration to all objectives , functions. Feasibility, deliverable and constraints is given due attention only after follow up from guide.
	Level 3	Concept of the project is developed with consideration to all objectives , functions. Feasibility, deliverable and constraints are not considered even after follow up.
	Level 4	Concept of the project is developed wherein some of the functions / objectives are not fulfilled. Feasibility , deliverable and constraints is given due attention only after follow up from guide.
	Level 5	Concept developed is a vague idea without proper consideration to its objectives and functions.
D	Level 1	Implementation of project is demonstrated very convincingly. Detailed analysis of the results and excellent interpretation of the work is presented.
	Level 2	Very good demonstration of the work done. The results produced are analysed and interpretation of the work is presented
	Level 3	Good demonstration of the work done. The results produced are analysed but interpretation of the work is not very convincing.
	Level 4	Demonstration of the work done is partial. The results are gathered but its analysis and interpretation is not very convincing
	Level 5	Demonstration of the work done is incomplete. The result gathered are not very consistent. The analysis and interpretation is incomplete
